

- Sedro-Woolley's First Aerial Device Nearing Completion - May 4, 2010

This picture was taken by Chief Klinger while inspecting the new apparatus in South Dakota on May 4, 2010. The new ladder truck is expected to be in Sedro-Woolley mid-May and will make it possible for the SWFD to more safely respond to emergencies in large and tall structures and for the City to allow for increased height in new developments.
