

HOUSEHOLD HAZARDOUS WASTE FACILITY
Located at the Recycling & Transfer Station on Ovenell Road
If the label says "Danger", "Warning", or "Caution"
Don't throw it in the trash. Use it up or bring it to us!
There is no fee for Skagit County residents

This information is for households only. Businesses must contact the Small Quantity Generator program at 360 424-9532, to arrange for disposal of chemicals.

No Explosives, Radioactive Materials, or Asbestos

EXAMPLES OF HOUSEHOLD HAZARDOUS WASTE ACCEPTED

Oven cleaners	Oil paints,	Air fresheners	Snail and slug bait
stains, varnishes		Gasoline	Insecticides
Solvents		Diesel fuel	Herbicides
Drain cleaners		Aerosol sprays	Pool chemicals
Paint thinners		Mothballs and	Photographic chemicals
Paint strippers		crystals	Chemistry set chemicals
Toilet bowl cleaners		Vehicle batteries	Fertilizers with pesticide or
Metal polish		Roach and flea	herbicide
Shoe polish		killer	Fertilizer
Spot removers		Rodent killer	Brake fluid
Used motor oil		Button batteries	Transmission fluid
Antifreeze		Ant poison	Nicad batteries
		Wasp poison	Disinfectants

Only the following materials will be accepted daily from 8:30 a.m. - 6:00 p.m.

- Antifreeze
- Batteries
- Used motor oil

REDUCE YOUR USE OF CHEMICALS

RESEARCH THE PROBLEM

When faced with a problem that seems to require a hazardous chemical solution, take some time to do a bit of research. Look for a solution that is non-toxic (no warning label) or is less toxic (caution label).

BUY LESS

When you do buy a hazardous product, buy just what you will use up in a reasonable length of time. If you have leftovers you can't use, share them with the neighbors.

AVOID AEROSOLS

Often the propellant is used up before the product is emptied out of the can. Completely empty aerosol containers may go into your regular garbage, but if there is any product remaining in the can it must be treated as hazardous waste.

CHOOSE LATEX PAINT (water-based paint)

Latex paint cans can be dried out if they have 1" or less paint in the bottom, then disposed of in your regular garbage. Oil based paint cans that are empty and dry may also be disposed

of in the regular garbage, however any old oil-based paint must be treated as hazardous waste.

REMEMBER

Dry, empty containers should go in the regular garbage.
